DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 08/04/2006 has been entered.

Allowable Subject Matter

Claims 45-52, 59-60, 70-74, and 87-100 are allowed.

The following is an examiner's statement of reasons for allowance:

The examiner notes that claims 70 and 73 did not state the gain material to be surface emitting. However, each claim did limit the laser to that of the OPS type. As the applicant expressly defined an OPS laser to be that of the vertical cavity surface emitting type at page 1 line 18 of the specification, the examiner has taken the definition to be limiting in the claims.

Claims 49, 59, 70, and 73 are believed to be allowable as an optically pumped vertical emitting gain structure (OPS) having the stated structural limitations, including multiple active layers, and namely being limited by an optical length of at least 5cm and a pumping spot size of at least 200um was not found to be taught in the prior art. Prior art such as that cited in the applicant submitted prior art, and that cited by the examiner, was found to teach the overall structure of the OPS devices, but failed to teach the

optical length and the spot size. The majority of these references taught optical lengths much shorter than 5cm, and also taught spot sizes less than 200um. As the prior art was not found to teach these limitations, nor motivation for using the limitations, the claims are believed to describe allowable subject matter.

Claims 46-52, 60, 71-72, 74, and 87-100 are allowable as they depend from allowable claims 49, 59, 70, and 73.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tod T. Van Roy whose telephone number is (571)272-8447. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Minsun Harvey can be reached on (571)272-1835. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
